

January 21st , 2019

The following clarifications are offered pursuant to questions presented via email by Plan Holders, but do NOT constitute changes or additions to the Bid/Contract Documents.

Questions: *Are there record drawings or additional information available for the treatment plant?*

Response: Record drawings are not available. However drawings from the plant's manufacturer Enviroquip are available for reference. Dimensions should be taken as approximate and verified by contractor in-field. The drawings have been attached to this document as pages 2 through 8.
